

GRANDMA USED SAGE TEA TO DARKEN HAIR

She Mixed Sulphur With It to
Restore Color, Gloss,
Youthfulness.

Common garden sage brewed into a heavy tea with sulphur added will turn gray, streaked and faded hair beautifully dark and lustrous. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a Sarsaparilla bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old time recipe improved by the addition of other ingredients.

While weeps, gray, faded hair is not usual, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so easily. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and lustrous.

This preparation is a delightful toilet requisite and is not intended for the cure, mitigation or prevention of disease.—Advt.
